PlanManager

An innovation in bodyshop management, for greater efficiency and workflow streamlining

A next-generation bodyshop management solution – Audatex PlanManager, provides an innovative approach where small adjustments and a focus on precision make all the difference.

Designed by bodyshop experts, **Plan**Manager is cloud-based, feature rich and mobile. Giving bodyshop owners and managers a new perspective on their business. Enabling them to transform current processes and create smooth running, optimised workflows to maximise throughput with quicker turnaround times and minimal delays.

PlanManager connects the industry in a safe, secure and responsive way through seamless integration with claims systems, communication portals, estimatics, dealership management systems, paint scales and accounting packages.

Through continuous, iterative development with monthly release cycles, businesses and users are never without the latest requirements. Features are developed in conjunction with bodyshops to ensure improvements are effective, precise and deliver solutions for today and tomorrow.

Creating a seamless, digital customer journey, giving you the ability to deliver on your promises across the whole vehicle repair cycle

Customers experience a seamless digital journey during the collection, repair and delivery of their vehicle. Using real-time notifications customers can be kept updated earlier, suppliers can be informed of new requirements and resources can be adapted to minimise the impact on key-to-key times, the cost of repair and increase customer satisfaction.

Benefits at a glance
